NCBLG Licensing Requirements for Professional Corporations and Professional Limited Liability Companies:

- North Carolina Licensed Geologist in charge
- For firms offering only geological services: NC Licensed Geologist (LG) must be an Officer & Director if professional corporation, or Member & Manager if PLLC.
- For firms offering multiple professional services: Each professional service offered must be represented by an officer *or* director (member *or* manager for PLLC). NC licensed geologist must hold one or both positions.
- 2/3 of shares/interest must be held by licensed professionals (professional geologists, engineers, land surveyors, landscape architects, architects or soil scientists in any state with comparable requirements)
 - ➤ Domestic Corporations (In-State) NC LG must be a shareholder
 - Foreign Corporations (Out-of-State) NC LG is not required to be a shareholder
- All firms should include with their Corporate Application a *copy* of the form that they *plan to file* with the Secretary of State. Examples include Articles of Incorporation and Articles of Amendment. The firm will file the NC SOS documents with the Secretary of State's Office, along with the Certification issued by NCBLG, after the Corporate Application has been approved.

Grandfathered Corporations/PLLCs:

- Pre-6/5/1969 Corporations/PLLCs
 Corporations and limited liability companies formed before June 5, 1969 are grandfathered by the Professional Corporations Act, NCGS 55B. Must have NC geologist in charge and provide documentation of incorporation date.
- Pre-9/1/1991 Corporations/PLLCs Corporations and limited liability companies formed before September 1, 1991 are grandfathered by the rules of the Board. Must have NC licensed geologist. Must show proof of offering geological services prior to 1991.
